Alex Gatashov

Product Designer

Experience

EPAM | Senior UX Designer

May 2021 - Present - Hybrid

Have had an experience working with industry leaders in: HealthCare, Fintech and E-commerce. Usually closely collaborate with main stakeholders, development teams, tech-writers. And covering all steps in design process and supporting development implementation.

Fluency Bank | Product Designer

March 2020 - June 2023 - 3.5 Years, Remote

Designed CBDC user experience (Aureum) for the ECB Digital Euro project. Focused on user-centered design principles to create a secure, intuitive, and seamless user experience across online and offline functionalities, including the Aureum Offline Component and funding/defunding processes.

Brave Wings | UX Designer

July 2018 - February 2019 - 8 Months

Made designs for: banking for private entrepreneurs, where I conducted user testing; banking-crypto app for the US market; CONx is a competitor of Skype and Zoom for the corporate market segment (mobile app; 50” touch devices for presentations and conferences; dashboard for managing info on the monitors - a product is using in stadiums and for military purposes; CRM system for managing subscriptions to the above types of products).

Freelance | UX Designer

April 2017 - July 2018 - 1 Year And 2 Months

Call center; Recruitment agency; MLM platform structure – I proud of this project, because any MLM company in Ukraine didn't have that finance structure that helps to understand how much you earn for some period; Gambling aggregator focused on Europe; Community of one of the Ukrainian sellers of cosmetics; Mobile app for money transfer for Europe; Service for receiving payments.

Platinum Bank | Usability Specialist

July 2016 - March 2017 - 9 Months

At my first job at UsabilityLAB, I began working on web banking for Platinum Bank. This experience gave me insight into the complexities of the banking industry, where decision-making and innovation processes can be slow due to extensive bureaucracy. I collaborated closely with developers, marketers, and project managers to develop new functionalities.

Web Promo | Usability Specialist

October 2015 - June 2016 - 9 Months

Marketing agency where I was focused on enhancing client site conversions through detailed analysis and optimization. Created concise training videos on usability to educate clients. Gained proficiency in analytics tools such as Google Analytics and HotJar, developing and testing hypotheses based on metric analysis to improve conversion rates.

UsabilityLAB | Usability Specialist

April 2015 - October 2015 - 7 Months

Alma mater where I first became acquainted with the user experience design. Participated in the development of projects from the stage "Idea" and improvement of existing ones. Here I understood what Persona, CJM, user flow, interaction scenarios are. Gained UX copywriting skills and collaborated with designers and programmers.
